

CONTENTS

1. Executive Summary

1.1 Introduction, Background and Study Objectives

1.2 Definition of Refinery Configurations

1.3 Basic Criteria for the Study Elaboration

1.4 Conclusions and Recommendations

2. Definition of Refinery Configurations

3. Study Basis

3.1 Production goals of the proposed refinery

3.2 Feeds and Products Definition

3.3 Financial Analysis Basis

3.4 Attachment Crude Assay

4. Optimization of Refinery Configurations

4.1 Basis for LP Model Development

4.2 Initial Optimization Studies (for Configurations evaluated)

4.3 Conclusion and Recommendations

5. Result of Cases
